IDMP – What does it mean for you?

IDMP is being implemented in Europe **right now**

It involves an intricate interplay between a large number of **standards** and **terminologies**

It provides opportunities for **all players** in the medicinal product life-cycle

- Sometimes the impact is very limited
  - *E.g. mapping of local codes to IDMP-compliant codes*
- Sometimes it is quite extensive
  - *E.g. redesigning the interface with the national drug database*
