

UNICOM 7th CONSORTIUM MEETING

Marriot, Gent, Belgium (<https://maps.app.goo.gl/brFKqikfMXbeH3729>)

Partnering for digital health solutions and data use that offer real value for care and research

- 28/11 | UNICOM consortium meeting
- 29/11 | EHTEL 2023 Thought Leader Symposium
- 30/11-1/12 | i~HD Annual Conference, in collaboration with the Health Data Forum

DIGITAL HEALTH AND DATA WEEK
28/11 - 1/12/2023
GHENT, BELGIUM

Logos: i~HD, Health Data Forum, EHTEL, UNICOM

This first-ever Digital Health and Data Week offers a practical and creative way, for different, but complementary communities, to meet and share knowledge and practices. The four-day event, a collaboration between UNICOM, EHTEL and i~HD, includes complementary topics, and their content builds on each other.

- **28-29 November 2023, UNICOM meets for its 7th consortium meeting**
- [29 November 2023, EHTEL Thought Leader Symposium](#) featuring key topics: Medicines data integration for clinical use, Digital health solutions adoption and upscaling, Artificial intelligence (AI) in healthcare, among others.
- [30 November and 1 December 2023, i~HD Conference](#) on Building Trust in Health Data, with a focus on: Trusted health data spaces, Medicine safety for patients, High-value data for care + research, Patients in the health driving seat.

[LINK FOR REGISTRATION](#)

Joining the Dots

Making a comeback in i~HD conference is "Joining the Dots" where European funded projects tackling health data challenges will be brought together. Use cases, insights, successes and challenges will once again be front-and-centre as experts lead the sessions.
